

RAYMOND RECORDER

VOL. 46—No. 43

THURSDAY, JULY 14th, 1949

Fatal Accident At Factory

John Kaesh, age about 50 years, an employee of Canadian Sugar Factories for many years, was instantly killed Tuesday morning as he was shovelling sugar in the factories bulk storage bins here.

Kaesh, of Hungarian descent, and another workman were in the bins chipping down sugar from the walls of the bins and shovelling it back. A large overhang broke loose and came down throwing Kaesh against the wall. It is believed he died instantly from a head injury when the weight of the sugar forced him against the wall.

Kaesh is well known in this district, having been a resident here for many years. A wife and two children are believed to survive in the old country.

Dubious Voices

Praising Peace

by Joseph Lister Rutledge

There is always a suggestion of arrogance in the attitude of the so-called intellectuals and men of good will who cling to the skirts of communism. They assume that they, more than others have the welfare of the world at heart; that they can better understand its problems and can meet these problems without the intrusion of the selfish interests and personal prejudices that govern the rest of mankind. They ask us also to assume that because they are a very limited minority, and because they lean toward a cause that most people believe hideously wrong, they have a peculiar righteousness.

We would not deny the right of any minority to express itself. But

continued on back page

Work On Sidewalks Has Started

In speaking with Town Officials this week we are informed that the details of the new sidewalk on the west side of Broadway have been worked out and work will commence within a week or two. It will be a bit inconvenient for the business men and citizens but with patience we will be walking dry-shod on a new walkway.

McNeely Brothers are in town putting in several sewer connections and some water lines. Also working in the town is a carry all (5 yard scraper) busy in the west side of town cutting down boulevards and building up roads.

General improvements about the town are showing up and if we have patience and show co-operation our town will soon be on an equal with any town its size.

These three bright-eyed youngsters are listening intently to what CBC Producer Peter McDonald has to say about a script for the Vancouver children's drama series Magic Adventures. Don Gaylord (centre), age

St John Ambulance At Stampede

In the true spirit of willingness to serve in an emergency, the local centre of the St. John Ambulance Association in co-operation with the Sugar Factory provided an organized First Aid Post during the Raymond Stampede on July 1st and 2nd.

In all, eighteen cases of injuries varying from minor scratches to more serious bruises, sprains and probable fractures sustained by the Rodeo performers, were treated by the First Aid team consisting of John Housley, Captain; Arthur Atwood, Assistant Captain; Glen Adamson, Varold Rollison, and Gail Atwood. John Landysheff, local representative of the St. John Ambulance Association was also with the team.

The post was located at the no gate of the Stampede grounds arena in a shed adopted for the purpose and marked on the outside with a flag bearing the St. John Ambulance Emblem.

Once more Atwood's stretcher in the hands of the inventor himself, rendered invaluable service in quick picking up the injured and removing them from the Arena to this point.

It may be regretted that thus far Arthur Atwood of Raymond, the inventor of the stretcher, has been unable to commercialize his exceedingly useful and versatile stretcher.

Public recognition of the services rendered by the St. John Ambulance Association was given through the public address system at the end of each day by those responsible for the Stampede.

M Men and Gleaner Party

The M Men and Gleaners of the 4 Raymond Wards were entertained regally last week at the Stake House when they enjoyed an afternoon and evening of games, program, lunch, and dancing. The party was held on the spacious and beautiful lawns of the Stake House and the program was heard on a public address system set up by Mose Fromm. The afternoon started off with games consisting of softball, volleyball, group relay games and swimming, very ably handled by Leonard Watson, and kept the crowd active and laughing all the time.

The program consisted of vocal and musical numbers as follows, these are not in the order of appearance: Piano duet, Shirley Allen, Carolyn Taylor; A reading, "Old Mother Hubbard" by Zetella Taylor; Vocal solo, Kathleen Holmes, Reading.

Genevieve Erickson, Vocal solo, Geraldine Court, Reading, Virginia Rolfe.

Local Happenings

Dr. and Mrs. Asper and two daughters were guests at the home of Mr. and Mrs. W. C. Stone, for two days during their visit to our city.

Mr. and Mrs. Leonard Watson and daughter are leaving Friday of this week for an extended motor trip through central Alberta, British Columbia and eastern United States.

On these hot sultry days the most popular spot in town is the Swimming Pool which if you cared to see, is overflowing with young people. The youngsters really have a gay time in their cooling-off activities.

Mrs. Clara Rolison has returned from a weeks visit at Taber.

L. L. Pack is a Raymond visitor for a few days.

Friday night club was held last week at the home of Mrs. Marion Tolles-trup. Marguerite Vance gave the book review "In The Shade of Our Family Tree." Lunch was served by the hostess.

The Child Psychology Club met Wednesday at the home of Ada Stone with Mrs. Zetella Woolley as assistant hostess. Nonavie Jones gave the lesson on "Does Punishment Fit The Crime." Lunch was served by the hostesses.

Piano solo, Dorothy Murdoch of Lethbridge. A fashion show was put on by Wilma Sorenson and featured the four Queens of the Raymond wards. After this the fashion show was given and all the latest in the fashion world were modelled by young men, and almost prostrated the crowd. Also in the show were a group of Gollywogs (you guess). A vocal duet was rendered by Edna Leavitt of Taber and Helen Piegness of Raymond.

Earl Zemp gathered the group together and invited them to partake of a delicious lunch served by the ladies of the first ward headed by Lucille Evans. Ruth Ackroyd acted as Mistress of Ceremonies for the program.

In the evening a dance was held on the Open Air Pavilion at the Second Ward. A most enjoyable time is reported by all who attended.

It Pays To Read The Ads

It pays to read the ads. That's right. You may win two free theatre tickets if your name appears in one of the ads on the Buy at Home Page.

Each week that this page runs the name of a Raymond or district subscriber will appear in one of the ads. Simply locate your name, clip the ad in which your name appears and mail or present it at the Recorder office and you will receive ABSOLUTELY FREE two tickets to the Capitol Theatre, Raymond, with the compliments of the advertiser whose advertisement your name appeared. Simple isn't it. And it pays too.

The page is also a ready reference for you and will acquaint you with the businesses of Raymond and what they have to offer. They are all public spirited citizens and have joined together in this project of urging you to buy at home. Buying at home supports home industry and keeps our money here to help our community prosper and grow. Watch this page carefully in case your name appears and in watching for your name acquaint yourself with your local merchants who are here to serve you and deserves your patronage.

Legion Hall Now In Use

All the Legionnaires are jubilant now of the fact the local war veteran's dream of having a Hall of their own, came true. For all practical purposes the Building is open now for services to meet the Veterans' needs. However it should not be overlooked that a considerable interior work is still to be done before the building may be declared as fully completed.

It is estimated that the minimum amount of cash that is still required for this work amounts to \$2,000. Appreciating the public support of the past, the Legion appeals to its supporters and friends for further generous contributions.

The Legionnaires themselves are urged to continue to report for work at the Legion Hall especially on Saturdays.

This opportunity is taken to acknowledge with thanks the recent contributions as follows:

R. Cooper	4.00
Mrs. A. Lund	10.00
Henry Jensen	10.00
Andy Lund	20.00
Total	44.00
Previously acknowledged	1,794.30
Grand Total	1,838.30
Returns from special event	185.00
Objective	4,000.00

It is the intention of the Legion to make the Memorial Hall available on some suitable contributory basis to the other service organizations

of the Community should they so desire. The Ladies Auxiliary of the Legion, will no doubt, be glad to render any catering service that may be required by the parties using the hall.

All Legionnaires are requested to take notice of the next general meeting to be held and attend.

PROBE TWO-WAY RADIO

SERVICE FOR TOURISTS

The possibility of operating a two way radio service to provide motorists with information on road conditions and services has created interest among officials of the Alberta Motor Association.

Such a system is being developed by the American Automobile Association and is being extended to a limited extent, it is understood.

Recently, directors of the Edmonton branch, A.M.A., named a special committee to look into the possibility of a two-way radio set-up. It was suggested that such a system might be linked with other sections of the province including the north country.

Numerous inquiries are being received at A.M.A. offices concerning road conditions and accommodations in southern Alberta, a teletype service between Calgary, Banff and other offices is giving excellent results. A.M.A. officials report a heavy volume of inquiries and these are being handled promptly by the staff at Calgary, Lethbridge and Edmonton branches. In all probability, Alberta will see a record tourist movement this year, with the greatest turnover exceeding the 1948 margin of \$17,500,000 by a good margin.

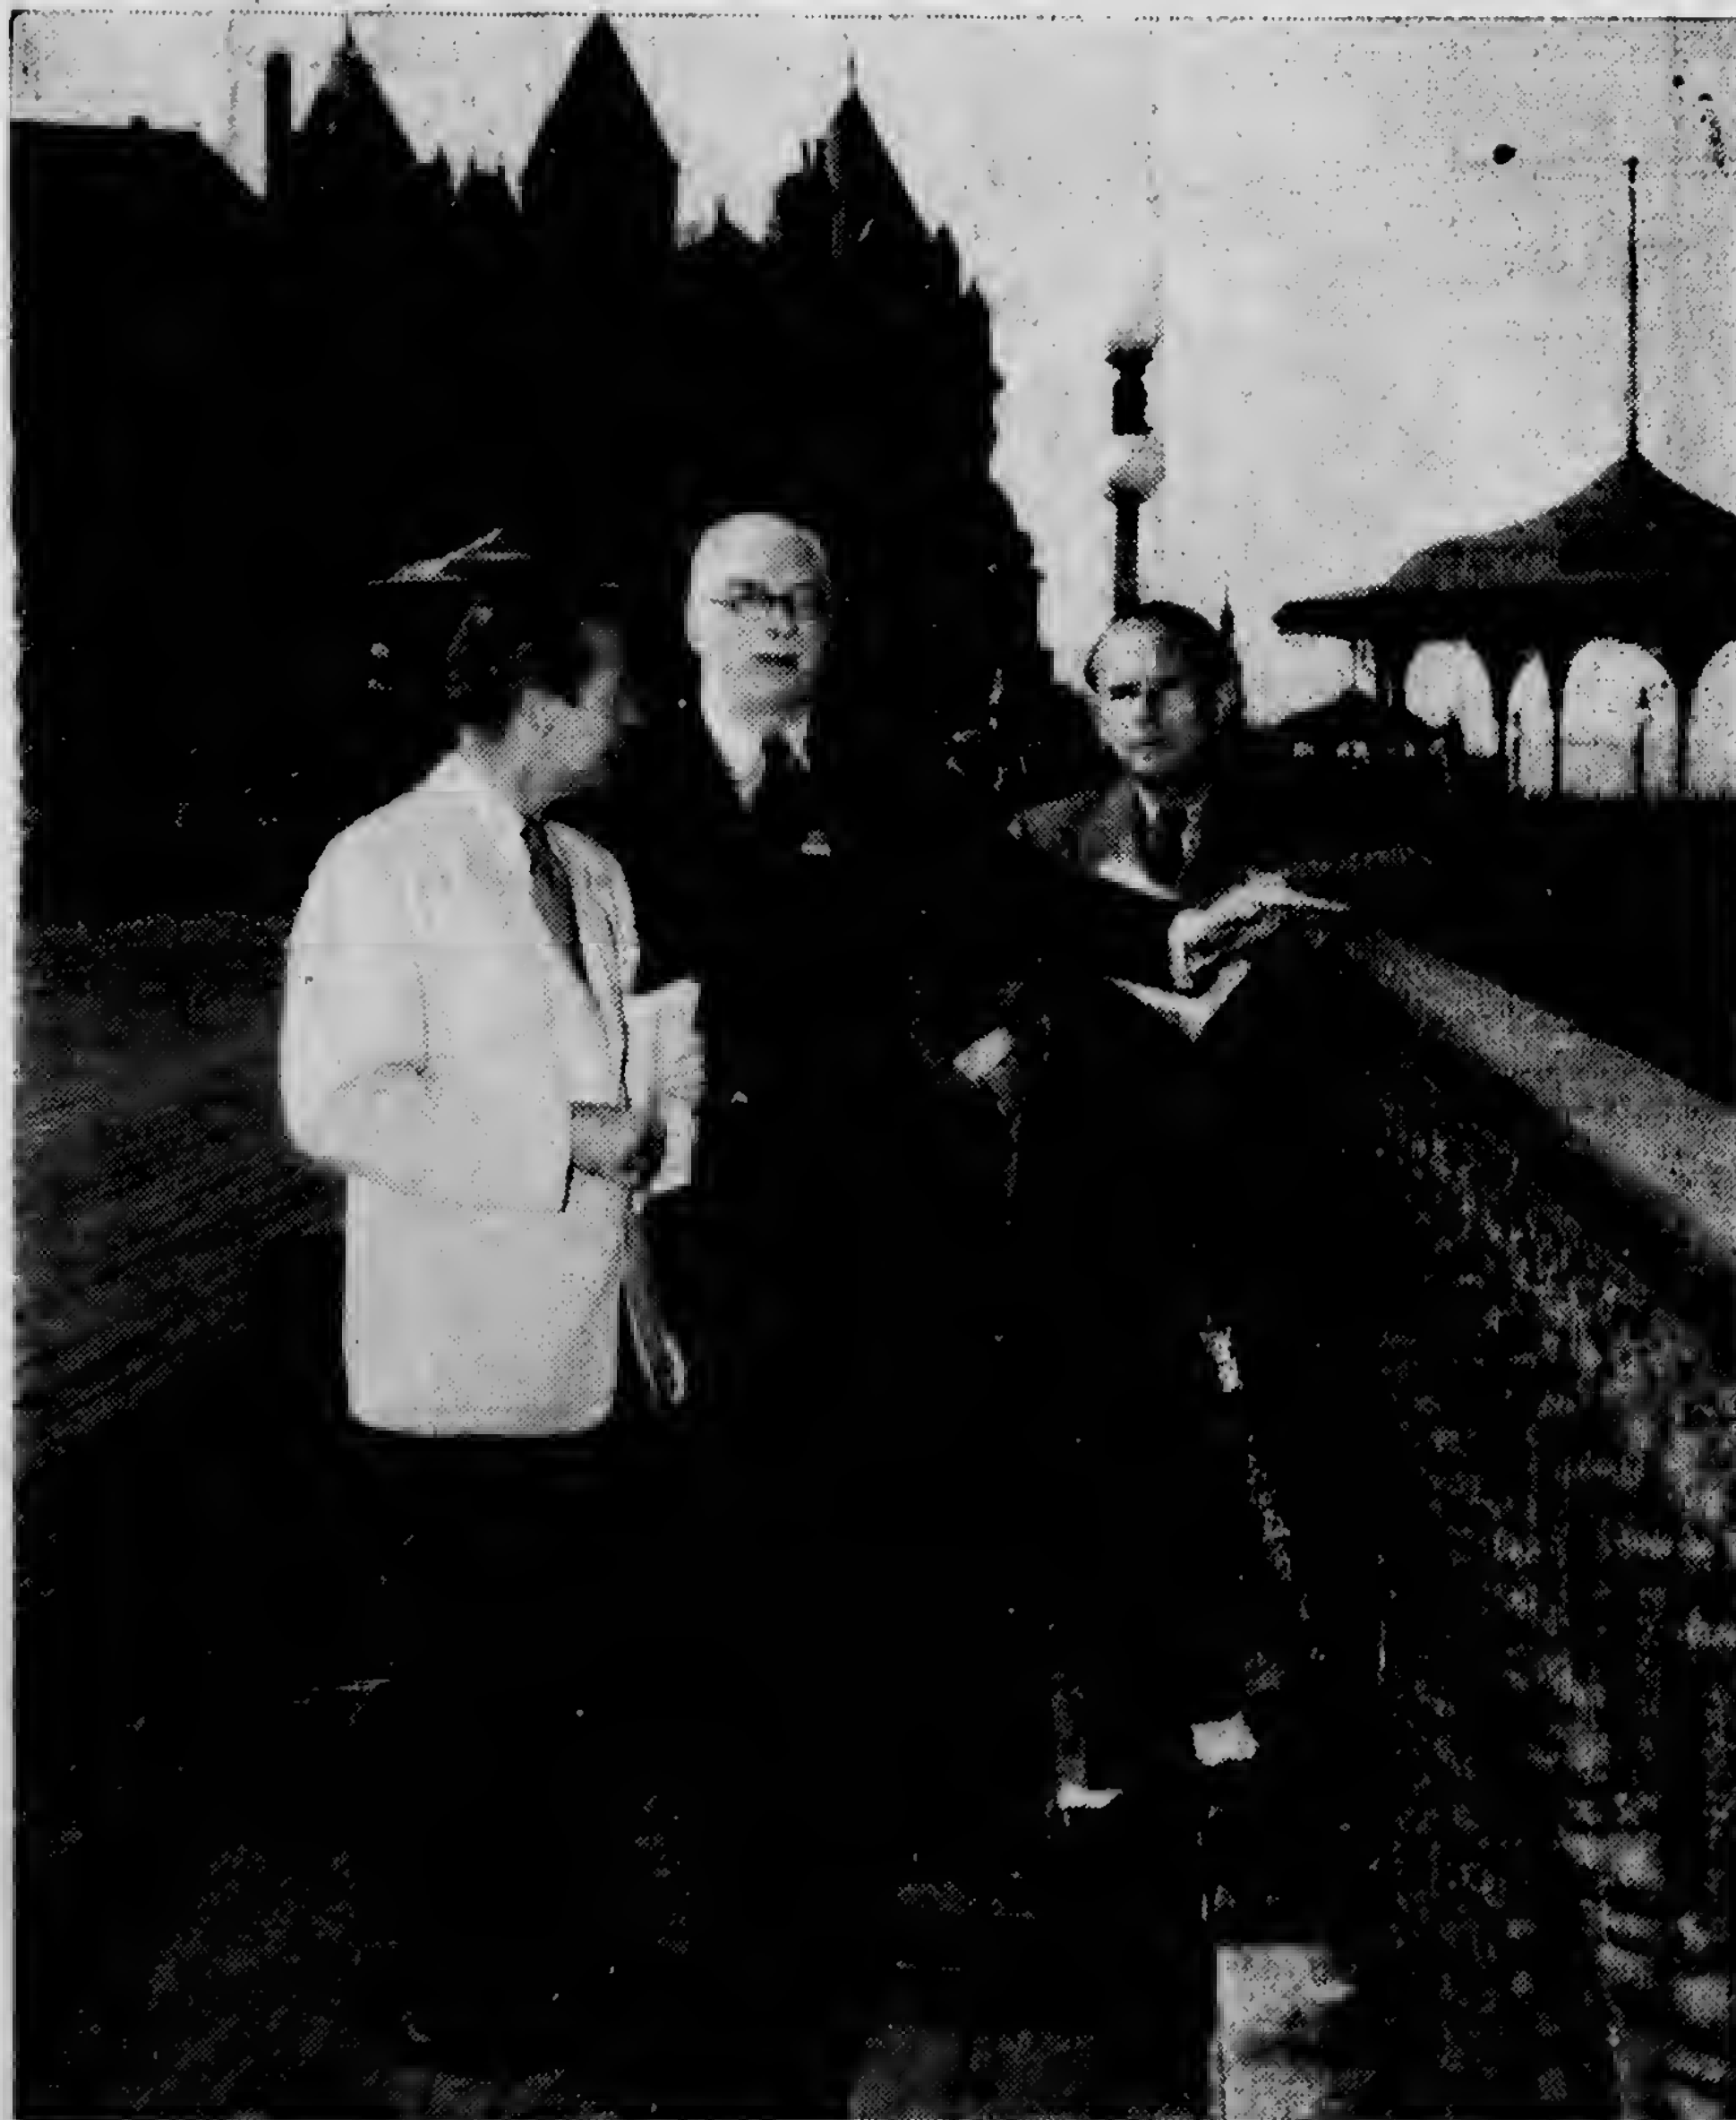

Must Face Competition

In the last few weeks there have been many requests to the Canadian Tariff Board for increased protection against various imports. Fruit growers of the Niagara district have complained that they can't meet the competition of Maraschino cherries from Italy. Cheap gloves and mitts from Japan, the Board has been warned, imperil the very existence of the home industry. Some Canadian textile and confectionery manufacturers claim that British produce is being "dumped" on the Canadian market.

Undoubtedly in certain cases there is justification for these complaints. If the home industry is to survive and continue to provide employment until competition from abroad must be stopped. But, don't cut the Financial Post, the authorities must make sure that this competition is really unfair. If it is simply a case of the domestic cost of production being unreasonably high, then that's another story entirely.

If heed is paid to every claim, soon there will be no foreign goods moving in this direction and no Canadian goods moving in the other. We can't begin to hold our present reduced export trade, let alone increase it to more prosperous proportions unless we are willing to accept imports in return. That is a lesson it was hoped that Canadians and Americans had learned during the last two decades, but recent revivals of the old cry of "cheap foreign labor" has aroused doubt.

Doctor: "Did you give your husband the powder as I told you? enough to cover a shilling." Mrs. Jones: "Oh, yes, doctor only I hadn't got a shilling so I covered 12 pennies."

Phillip D. Reed (left) of New York member of the International Chamber of Commerce Council, just after he assumed presidency of the I.C.C. With him are Sir Arthur Guinness during the 12th Congress in the of London, England the rethring Chateau Frontenac Hotel Quebec, president (centre) and Angus S. Duncan president of the Congress.

King Bros. Circus with Joe Mix Is Coming Soon

Get Ready!

The Circus is coming! The King Bros. Show, with Joe Mix will exhibit in Raymond, Saturday, July 23.

Two special convoys are used to transport this great organization from city to city. Travelling with the circus are 600 employees in addition to 30 advance men. Twenty-two tents covering 12 acres of ground house the transient city in the daytime. The circus has its own doctor, lawyer, dentist, U.S. Postman, detectives, blacksmith, carpenters and, in fact every artisan in the average city. The famous King Bros. menagerie, declared to be the finest and most complete travelling zoo in the world is a part of the show. Many new rare and costly specimens of the wild animal kingdom have been gathered from all parts of the globe. Tapirs, guinea pigs, Vipers, tigers, leopards, dromedaries, zebras, leopards, panthers, yaks, camels, jaguars, clouds, seals and a herd of elephants are but a part of the travelling university of natural history.

Great stars from foreign countries, the respective champions in their lines, participate in the gigantic display of athletic numbers. The trained horse displays are headed by John O'Brien, acknowledged to be the greatest trainer of all time.

Joe Mix the circus' famous western star with a congress of cowboys, cowgirls, Indians, cowboys and rough riders will be seen in a spectacular revival of the old west.

Among the acrobats will be the Canadian Sisters troupe, champions of Mexico. The petite and charming Christine Sisters intrepid bareback

riders come from the Antipodes to thrill and amaze you. From Europe will be the amazing flying Chambrays, International aerialists and the famous Christian family, equestrians. Clowns headed by Billy Burke and Fred Wenzel and Frank Cain will furnish fun for the little folks.

Performances will be given at 2 and 8 p.m. Doors will be opened an hour earlier to permit an inspection of the zoo.

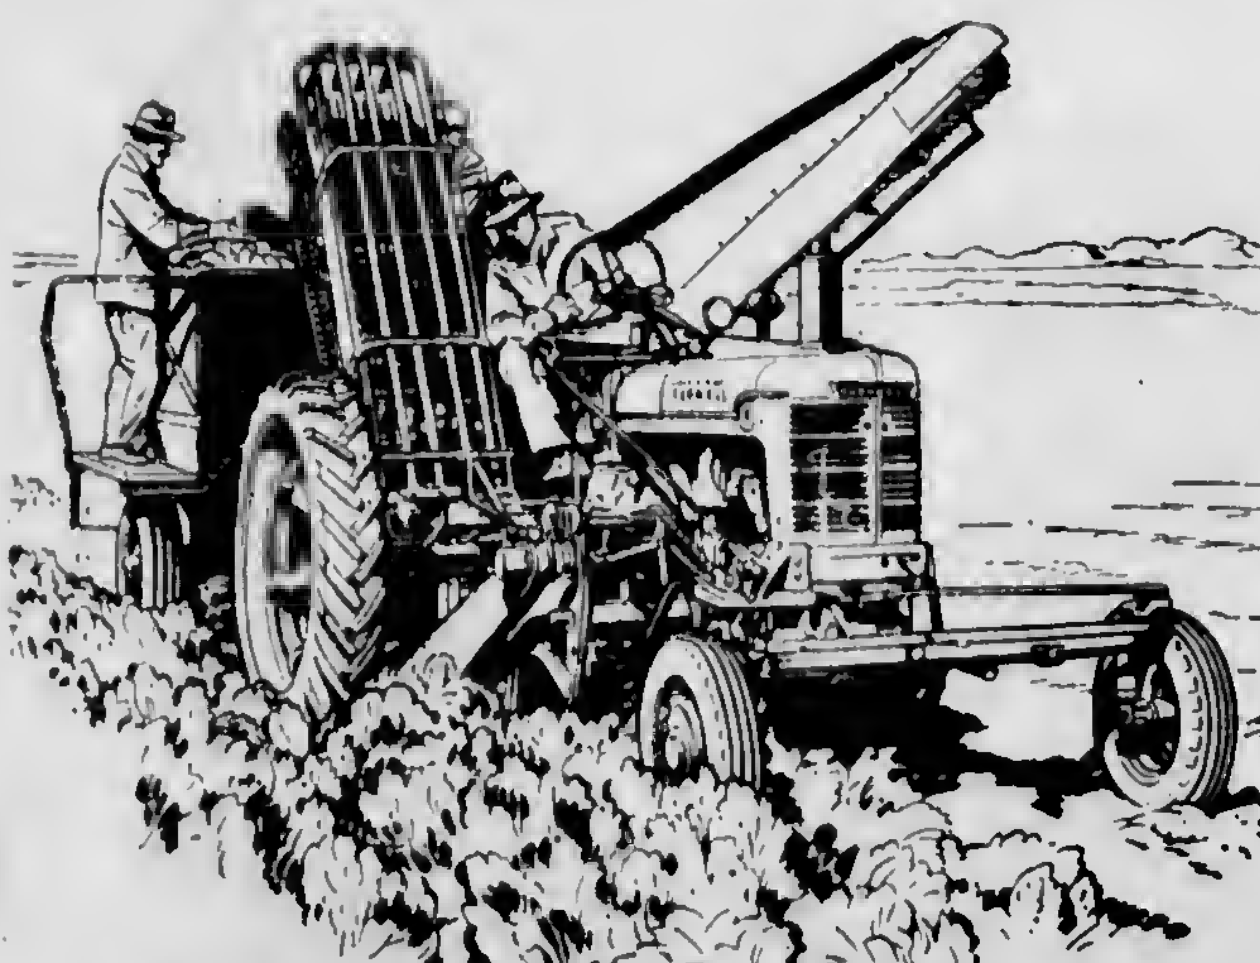

THE TEACHING PROFESSION—

When young people are thinking about careers, teaching is one that could well receive their careful consideration, says F. K. Stewart, Executive Secretary, Canadian Educational Association, writing in The Financial Post. For one thing, the next four or five years will see a great expansion in the educational system. And although salaries are generally regarded as being not enough, (but they are improving) the profession can be regarded as well rewarding in other directions, in fact, it has been called the most rewarding of all professions.

Persons in other occupations and professions look with some envy at the teachers' allegedly short working hours from 9 a.m. to 4 p.m. five days in the week, with two weeks off at Christmas, 10 days at Easter and two months in the summer.

These hours are no more indicative of the time spent at work than the hours 10 to 3 for bank employees. During the day the teacher must keep at least 30 lively children actively and purposefully engaged in learning.

When the school day is over there (continued on back page)

Once Over and IT'S ALL OVER

with a McCormick-Deering Beet Harvester

Here's a real time and labor saver... the McCormick-Deering HM-1 Beet Harvester for Farmall H, M and MD Tractors.

In one continuous operation, this machine tops, lifts, cleans and loads the beets into a special two-wheel cart to complete the harvest in a "once over and it's all over" operation.

With the HM-1, you can harvest 5 to 6 tons of beets in an hour. You don't have to worry about weather or field conditions because this machine does a good job when it's not easy to harvest beets by other methods.

Ask us for details about this labor-saving, time-saving machine.

"Where You Get More of the Best for Less"

EXPERIMENTAL FARM WEEKLY LETTER

IRRIGATION INVESTIGATIONS

Duty of water is an irrigation term that is legally defined in the Water Rights Act as the quantity of water that is required to irrigate one acre of land in each irrigating season, May 1st to October 1st. This is further defined as 1.5 acre feet, or enough water to cover one acre of land 18 inches deep, delivered at the head gate.

At one time the legal duty of water was equal to 2.00 acre feet of water per season or enough water to cover each acre of land 24 inches deep. However, investigations showed that this was more water than could be beneficially used and in 1919 the legal duty was changed to 18 inches per acre. Water rights issued prior to 1919 are based on the old duty and those issued since that date are based on 18 inches.

Experience over the years indicate that the amount of water used on different projects varies widely depending mainly on climate, soil type and the crops grown, and in view of the expansion in irrigation development no wonder way, duty of water or what is now frequently referred to as the consumptive use of water, is a matter of considerable concern.

Data on the consumptive use of water, to use the more modern term is no less important in the case of existing projects, because climate for one thing varies considerably more than was evidently realized when large scale irrigation was started on the Canadian prairies some fifty years ago.

To meet this need some intensive irrigation investigations are now being undertaken by the Dominion Experimental Station, Lethbridge. The primary object of this work is to determine the consumptive use of water under varying climatic and soil conditions and the project includes (1) the establishment of a substation at Taber, (2) field use of water studies on the Taber Irrigation project, (3) the establishment of duty of water plots in outlying areas where irrigation is being developed, and (4) a meteorological survey of

existing projects and areas where irrigation developments are proposed.

In addition to measuring the consumptive use of water for the guidance of the engineer in designing irrigation works, the information to be obtained from these studies should be helpful to the water user. Many irrigation farmers have, thru experience, worked out successful methods of irrigation. Nevertheless there are problems such as over-irrigation and the unbalance of organic matter at the high level needed for maximum production and high quality under irrigation. These studies will provide means of applying a yardstick to the various factors such as moisture and fertility in order that the best methods of production may be worked out for the benefit of water users on existing projects and on new projects that are being developed.

DREAM SHATTERED— If the CCF

ever had any real hopes of building permanent strength among Canadian farmers, they must have been blasted by now, comments the Financial Post. The poor showing of the socialists in the general election confirmed the trend noted earlier in the Saskatchewan provincial vote. The CCF took a beating even in urban centres on June 27 but when it came to rural Canada Mr. Coldwell's supporters didn't even run a poor third. By now even the CCF must realize that Canadian farmer at heart is an individualist and a capitalist. He either owns or hopes to own his own land. He insists on running his own show.

In Canada, as in all other countries the farmer has most to lose to socialism. Wherever the state or a dictator has stepped in to assume supreme control as in Russia, the Balkans, or Spain, it has always been the farmer who has put up the most resistance.

Skinny men, women gain 5, 10, 15 lbs.

Get New Pep, Vim, Vigor

What a thrill! Body limbs fill out; ugly hollows fill up; neck no longer scrawny; body loses half-dried, "skinny" look. Thousands of girls, women, men, who never could gain before, are now proud of healthy, healthy-looking bodies. They thank the special vigor-building, health-building tonic, OTCZ. Its tonic, stimulants, invigorates, iron, vitamin B, calcium, enrich blood, improve appetite and digestion so food gives you more strength and nourishment; put pep on your bones. Don't fear getting too fat. Stop when you've gained the 5, 10, 15 or 20 lbs. you need for normal weight. Cost a little. New "get acquainted" size only 50c. Try Famous OTCZ Tonic Tablets for new vigor and added pounds, this very day. At all drugstores.

HAVE YOU \$10 in U.S. FUNDS?

If you have more than \$10 in U.S. cash you should turn it in to your bank, in exchange for Canadian dollars, without delay. Existing regulations make it illegal for any Canadian resident to retain in his possession more than \$10 in United States cash.

HERE'S THE REASON

Canada must have the U.S. dollars spent here by tourists in order to make them available for the payment of imported goods and services needed to keep production and employment at a high level.

RAYMOND

we would deny that being a minority lends its voice added authority. We would still contend that causes as well as men, must be known by the company they keep. And the Canadian Peace Congress keeps some very bad company, and holds some very bad views in the guise of exceptional righteousness. We would like to point out to people who might be moved by these claims that the goodness of intent that directs them is a very myopic goodness, that can satisfy itself with half truths, and justify highly debatable views and near treachery under a woolly-minded good intention.

There is political injustice in the world they urge. There are intolerable burdens oppressing peoples. There are undemocratic councils. Therefore we must be gentle with the Marxian ideology where all these injustices come into their full flower. There are political inequalities and oppressions, therefore we must fight them with a force that is still more unjust, more cruel, more corrupt.

Dr. James G. Endicott, addressing a gathering of this congress, described himself as "just a Christian missionary". That designation is now some distance in the past and it jibes very little with his present views. Can we believe that it is the Christian missionary speaking when he says of the Atlantic and Pacific pacts that they are "really instruments to put down people's revolts against intolerable and undemocratic oppression" or when he charges General Clay with arming the Nazis of Germany? "You put arms in their hands," he said, "and they will turn them around on the people who organized the war. And they will certainly have my blessing if they do." And this from the Christian missionary leader of a group that contends that "Peace is our most sacred duty". It is not peace they want. What they want is to propagate their own distorted and unbalanced views, and to impose on a world a remedy for worse than the abuses they propose to cure.

Order your Bicycles and Motorcycles where repairs are done
quickly, efficiently and at a minimum cost.

Your patronage will be greatly appreciated and prove beneficial in
helping us to serve better. If what you want isn't here we'll get it.

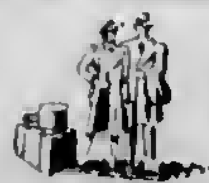

"GRANTS" Cycle & Sporting Goods

THE average teacher remains in one
school less than four years. Can such
insecurity give the steady, experienced
guidance you would want for your own
children?

A.T.A.

Reason why

A MILLION CANADIANS USE THE B of M

For Travelling
